Differentiators

Our experience in the injection molding industry paired with a highly skilled workforce allows us to better serve our customers and their needs. We offer outstanding customer service and the highest quality parts in the industry along with being extremely flexible to our customers' needs and changing demand.

Capabilities Statement

National Molding/Dynaplas LLC, Duraflex USA is an industry leader in the plastic injection molding field and offers a complete experience from design to production products. Duraflex USA continues to be a key supplier in the tactical hardware field for all types of plastic injection molding hardware from buckles and clips to complete quick-release systems for plate carriers and packs. We pride ourselves on high-quality products and outstanding customer service for all your plastic needs.

National Molding/Dynaplas LLC, Duraflex USA is a highly skilled injection molding company servicing the automotive, commercial, and tactical industries. With our skilled workforce, we supply everything you need to take your idea from concept to completion. With over 200 total injection molding machines, on-site tooling capabilities, project managers, and a robust quality department in place, we have the ability to handle projects of all shapes and sizes.

High-quality parts and outstanding customer service for all our customers.
